

ID SCAN

LET'S INDIVIDUALS CONFIRM THEIR IDENTITY INFORMATION USING A PHYSICAL ID.

OneID® ID Scan is certified under the Government's Digital Identity and Attributes Trust Framework (DIATF) to a High Level, providing assurance that your business remains compliant with regulation and UK Law

ID Scan from OneID® allows you to truly know who you are dealing with, separating genuine people from fraudsters, bots, and other business disruptors. **Protect your business, your employees and your customers with OneID® ID Scan.**

Using advanced technology ID Scan works in real time to confirm the identity of an individual, reducing the risk of errors and ensuring you remain compliant with regulation. It captures and analyses an individual's identity document, such as a passport or driving licence, ensuring it is authentic.

ID Scan also links the individual to the document with biometric authentication, matching a live selfie to the image on the document.

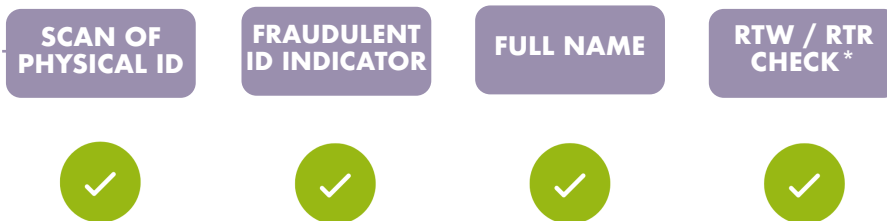

A **truly global solution**, ID Scan can be used to verify identity documents from hundreds of different countries and for Right to Work requirements in the UK, ID Scan can specifically capture and analyse British or Irish passports or Irish Passport Cards.

ID Scan can be configured with other OneID® products to provide enhanced levels of fraud and identity verification ensuring a **flexible solution** to meet your specific requirements.

○ PRODUCT ATTRIBUTES

OneID® offers a range of identity products that provide you with information about individuals to meet the needs of your business.

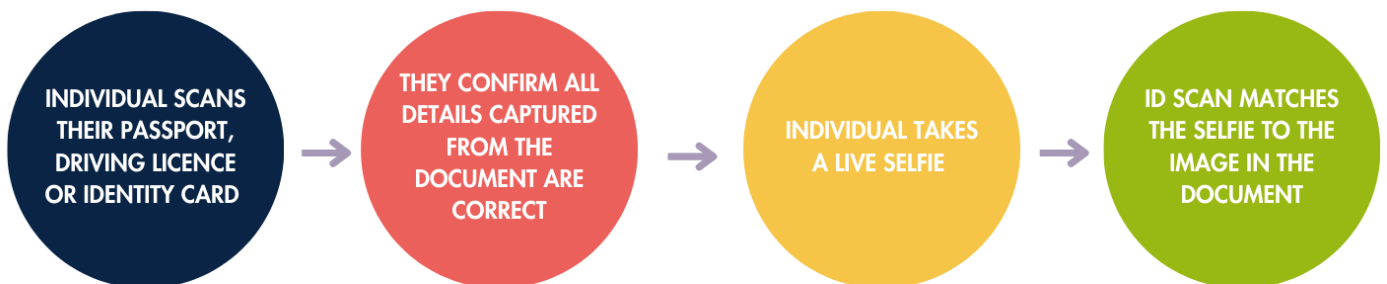

The OneID® ID Scan product allows an individual to confirm their identity information using a physical ID, **quickly, securely and with minimal friction.**

*RTR – Right to Rent, RTW – Right to Work

○ HOW ID SCAN WORKS

ID Scan enables an individual to provide their identity information online using a physical ID and checks its **authenticity** to prevent the use of fraudulent documents.

○ ID SCAN BENEFITS

- Let's an individual provide their identity information online using their physical ID
- OneID® uses the identity document an individual already holds to confirm their identity information with **minimal friction**
- No need for individuals to install new apps or create an account with OneID®, OneID® ID Scan uses a web-based portal that can accessed via a desktop or mobile phone at a time **convenient** to them
- ID Scan works in real time, confirming the identity of the individual and analysing the authenticity of the ID used to **detect fraudulent documents**
- Pay-as-you-go – **only pay for what you use**, no monthly subscriptions or minimum volumes are required
- ID Scan can be integrated with other OneID® **100% digital identity products**, providing **safe and secure, identity and fraud checks**

○ EXAMPLE INDUSTRIES
