HOW OneID® WORKS?

SIGN UP YOUR CUSTOMER AND CONFIRM THEIR IDENTITY IN A SIMPLE, SECURE AND FAST WAY.

OneID® facilitates the capture of the required details of your customer (the data subject) and authenticates them in real time.

YOUR CUSTOMER AGREES TO SHARE DATA WITH OneID®	→	THEY LOG INTO THEIR BANK ACCOUNT USING BANK AUTHENTICATORS	→	BANK SENDS YOUR CUSTOMER'S IDENTITY DETAILS TO YOU

The data is sent from your customer's bank to you via OneID® with the subject's consent. Only the data subject can agree to this as they are the only one who can log in to their account. All bank data, including identity details, is secured by the bank using some of the strongest security available.
