

○ OneID® SIGN-UP PLUS

OneID® Sign-Up Plus provides **seamless account creation** whilst confirming the identity of your customer so that you truly know who you are dealing with.

In addition, Sign-Up Plus also provides account data required to set up payments or proving source of funds.

With a **few clicks**, your customer can register for an account on your website or service, confirm who they are and set up payment details. Your customer's full name, date of birth and verified address and contact information are provided, all with **minimal friction**.

Every transaction is protected by the most **advanced counter-fraud measures**. Using OneID® solutions means that bank-grade authentication, fraud detection and biometric security protects your business from fraudulent activity.

○ PRODUCT ATTRIBUTES

OneID® has developed its technology to offer a range of onboarding products that provide you with real time information about your customers to meet your needs.

Sign-Up Plus enables a seamless account creation experience whilst confirming the identity of your customer and providing payment information in real time.

○ HOW OneID® WORKS?

SIGN UP YOUR CUSTOMER, CONFIRM THEIR IDENTITY AND SET UP PAYMENT DETAILS IN A SIMPLE, SECURE AND FAST WAY.

OneID® facilitates the capture of the required details of your customer (the data subject) and authenticates them in real time.

The data is sent from your customer's bank to you via OneID® with the subject's consent. Only the data subject can agree to this as they are the only one who can log in to their account. All bank data, including identity details, is secured by the bank using some of the strongest security available.
